Where is the Data/Who has the Data?

Meet Your GIS Partners

And many more!

Want to learn more about GIS?

Explore the innovative ways **GIS** is used to improve government operations. **GIS** has the unique capability to help explain large amounts of information via maps and graphics using location information. Cross agency applications appear seamless when data is merged into a **GIS.** See and learn the many new avenues for using this increasingly important technology.

Location:

IN Government Center South Conference Center
402 W Washington St
Indianapolis, IN 46204

State Government Parking Garages are for State Government Employees only. For other local parking see these options.

Registration:

Everyone who plans, manages, or performs any geospatial activities will benefit from attending this event. Presentations and resources are for **GIS** users at all levels of experience.

Pre-Registration is Required
